

LOCATION OF GASOLINE PUMPS

Gasoline pumps shall be set back no less than 18 feet from any street line (property line) to which the pump island is perpendicular, and 12 feet from any street line to which the pump island is parallel, and not less than 10 feet from any residential or agricultural district boundary line. If the pump island is set at an angle on the property, it shall be so located that the automobiles stopped for service will not extend over the property line.
